

INTRODUCTION TO LESS

— @TrevorPhillippi // Troy Web Consulting —

WHY PREPROCESSORS?

I. EFFICIENCY

Variables, Mixins, Functions, Expression Evaluation

2. ENCOURAGES BEST PRACTICES

Makes modular CSS easier, along with nesting

3. CSS3 BECOMES PRACTICAL

Browser prefixes, simplified advanced techniques

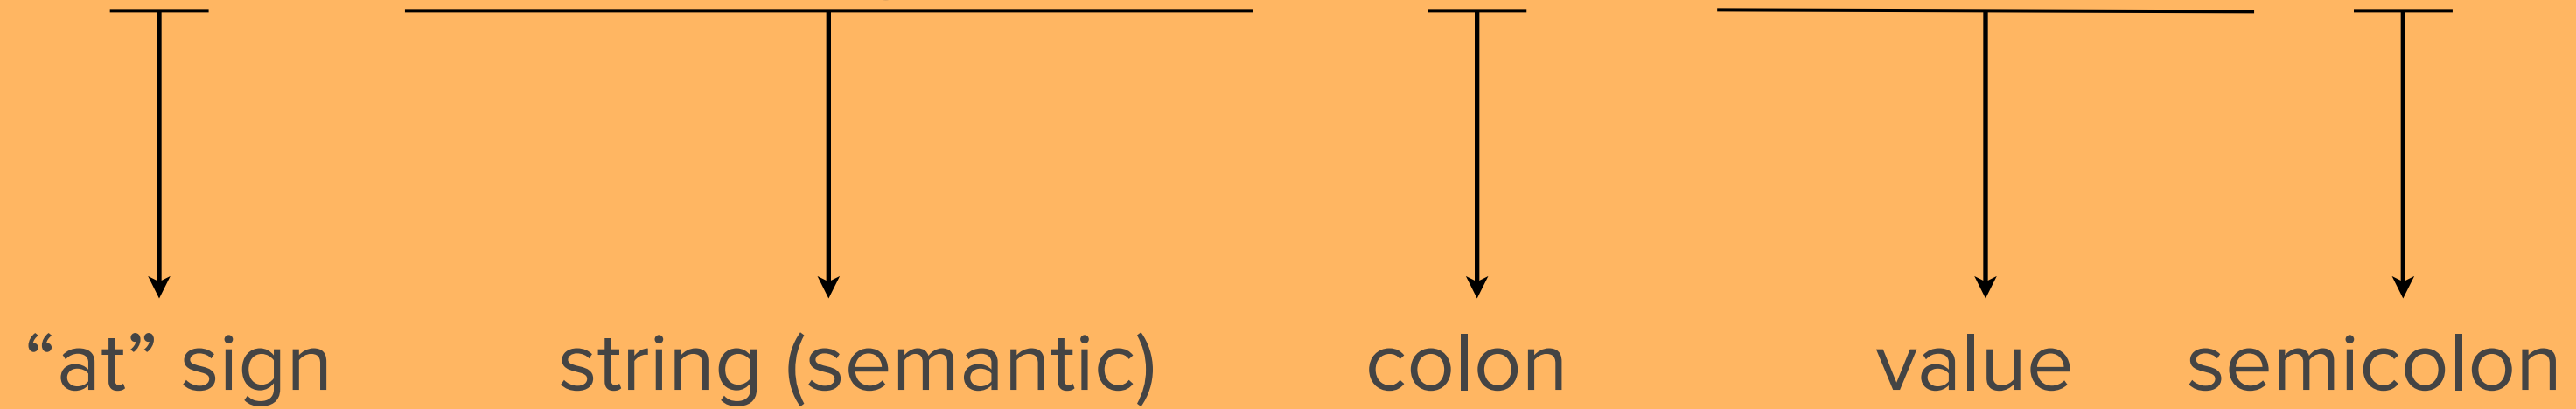

4. I CAN'T GROW FACIAL HAIR

Focus on semantics of code, not how it got there

LESS

VARIABLES

@primarycolor: #ffa850 ;

VARIABLES

@primarycolor

@primaryColor

@primary_color

@primary-color

all valid

MIXINS

`.class { color: #fff; }` } valid class

`.mixin { color: #fff; }` } valid mixin

THAT WAS COOL.

WHAT NEXT?
